ATKINSON'S CEMENT.—This Cement has hitherto been manufactured in Yorkshire, and, through long detention at sea, has often proved stale and unfit for use on its arrival in London. By the arrangement now made, the Cement will be manufactured in London, and thus protected to consumers in a fresh and genuine state, by the sole Agents, J. B. WHITE and SONS, Millbank-street, Westminster.

KEENE'S and PARIAN CEMENTS, for internal stucco, are employed very advantageously in place of wood for skirtings, architraves, and panel mouldings, and for in-door flooring, instead of stone. The peculiar properties of PARIAN Cement allow of its being painted or papered upon within a few hours of its application, and thus render it an important substitute for common plastering in those cases where expedition and beauty of finish are essential.—J. B. WHITE and SONS, Millbank-street, Westminster, Patentees of KEENE'S Cement, Licensees of PARIAN Cement.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement, but has the advantage over that material of wholly resisting frost. When used as a stucco it does not re-erase or turn green in damp situations, and requires no colouring. Employed as an hydraulic mortar for brickwork, it carries four to five measures of sand to one of cement, and is proved by trial to become harder and stronger in these proportions than Roman Cement with but one measure of sand. This superior covering power, combined with its eminently hydraulic properties, point it out as the finest material for building and embankment walls, the lining of reservoirs, cisterns, and baths, and for all those purposes where strength and a perfect resistance to water are required.

Manufactory—J. B. WHITE and SONS, Millbank-street, Westminster, and 36, Seel-street, Liverpool.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee, Messrs. ROBINS, ASPDIN, and Co. request reference to No. 391, page 491; and also Nos. 394 and 395, pages 503 and 511 of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, whereby the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water; it is stronger in its concretions qualities, harder, and more durable than any other description of Cement: it does not vegetate, crystalize, or turn green; but it is set to by any atmospheric influence whatever the climate, resisting alike the action of frost and heat. It is manufactured to set in from five to sixty minutes. For all purposes that Cement is applicable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; also at their Depôt, 42, Mansion-street, Liverpool.

BELL'S PATENT LIQUID CEMENT is ready for use, and only costs with the cost of oil paint. For beauty it is pre-eminent, giving the exact appearance of FINE CUT STONE. Can be used as clean on fresh Roman Cement, or any other plastering, and will protect the walls as well as Roman Cement. In coats of 1, 2, and 3 cwt., at 2s. 2d. and 3d., coats inclusive.

PATENT MINERAL PAINTS.

Invaluable for cheapness, beauty, and permanence: not half the cost of other paints, always ready for use, will keep good for years, and therefore well suited for exportation. Brilliant black, 2s.; rich browns, 1s. 6d.; greens and light colours, as per gallon.

C. BELL and Co., 8, Wellington-street, Covent-garden.

THE PARIAN CEMENT, for INTERNAL STUCCO.

No. 4, Porchester-terrace North, Paddington.

19th February, 1850.

Dear Sirs,—I have been reluctant to speak to the merits of Parian Cement, until sufficient experience enabled me to do so. As an extensive builder I have given it many trials, and now beg to express my perfect satisfaction with it. The house from whence I date was first inhabited by me on 7th September last, and a brick having been laid before the 1st of June—that is to say, in three months and one week I succeeded the walls in Parian; papered some, painted and marbled others; and the whole work has been dry and perfect from that hour. I need say no more.—I am, Gentlemen, yours respectfully,

WM. SCANTLEBURY.

Messrs. Chas. Francis and Sons, Nine Elms.

MARTIN'S PATENT

FIRE-PROOF AND ORNAMENTAL CEMENT,

APPLICABLE FOR

ALL INTERNAL PURPOSES WHERE PLASTERING IS REQUIRED.

This invaluable Cement has now been before the public as many years, and obtained so high a standing in the estimation of all who have used it, that it is unnecessary to comment on its merits. Messrs. STEVENS and SON however feel called upon to observe, that from the greater extent of surface which a given quantity of MARTIN'S will cover, as compared with other Cements for internal use, there will be found a gain of 16½ per cent. in material, full 7 per cent. less in price, with an additional saving in labour of 10 per cent., by its allowing about forty minutes for working, being less than one-tenth of the time of other cements of a similar nature, therefore worked with greater facility, making together the enormous saving of full THIRTY-THREE PER CENT.; the advantages therefore cannot admit of doubt. Specimens, showing its beauty, hardness, and applicability to all plain and ornamental purposes, may be seen; and the Cement, in any quantity, obtained of Messrs. STEVENS and SON, at their Plaster and Cement Works, 168, Drury-lane, London.—Manufactory, Derwent Mill, Derby.

N.B. This Cement will receive paint or paper in a few hours after the completion of the work by the plasterers.

JOHNS and Co.'s PATENT PERMANENT STUCCO WASH, CEMENT, and PAINT.—The attention of the trade and the public generally is called to these very valuable and well-known materials, which, for their durability, imperviousness, and other points, are unequalled. THE PERMANENT WASH, as a substitute for common lime-wash or water-colour, is an article which has long been wanting for stucco and brick-work; it is of a stone colour, but may be tinted to any other; is perfectly dry in twenty-four hours; will not wash off; is very little dearer than the common washes; and, being a non-absorbent, is admirably adapted for railway stations, union workhouses, schools, barracks, prisons, &c. One cwt. is sufficient to cover, with two coats, 200 square yards. THE CEMENT, from the great reduction in price, and its suitableness for internal as well as external purposes, places it above all other materials of its kind; it has no caustic qualities; may be painted or papered in a few days; never blisters, cracks, or vegetates; soon becomes as hard as stone; and may be cleaned with a brush and water. The merits of the PAINT are well known for its application to stucco work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained on application to the sole Agent, PHILIP HARE, at the Warehouse, 33, Steel yard, Upper Thames-street. A liberal allowance to wholesale dealers.

THE PATENT ARCHITECTURAL ROOFING TILES are strongly recommended as an improved system of roofing, and, from their extremely light and elegant appearance, are peculiarly adapted for coverting Churches, Parsonage-houses, Schools, Ornamental and other Villas. A material feature of these Tiles is their economy; they are as cheap as ordinary slating, and do not require stronger timbers. Every information may be obtained by application to the Secretary, at the Office, No. 136, Strand, where specimens of the Tiles may be seen.

SEALY'S PATENT TREBLE-CHANNELLED ROOFING TILES are manufactured and sold at SEALY'S PATENT TILE WORKS, BRIDGEWATER. For strength, durability, lightness, cheapness, and facility of repair it is unequalled.—N.B. Bricks and Tiles of every description. Each Tile is stamped "Sealy's Patent."

RED-FACING KILN BRICKS of superior colour and quality are now ready for delivery at Croydon station, on the Dover Railway, at 28s. 6d. and of any station beyond towards London, and at the Bricklayers' Arms station, at 30s. per cask.—Apply to the Foreman of the Brick and Tile Works, Merstham, near Reigate, or to the proprietor at Bell-street, Reigate. Specimens may be seen at the office of "The Builder," 2, York-street, Covent-garden.

WARD and Co., HONDURAS WHARF, BANKSIDE, and JAMAICA COFFEE-HOUSE, CORNHILL, LONDON.

Fire Bricks, best, 45s. per thousand; Stock Bricks, 22s.; Country Pan Tiles, 28s.; Plains, 32s. 6d.; 12 and 9 in. Flooring ditto, very bright and red. Paving, Crown, and Circular Fire Bricks. Rearbridge, Newcastle, and Welsh Bricks; ditto Lamps, Tiles, Statuary Marble, Paving Tiles; Clay, Loam, &c. of the best, and cheaper than any other house; Sand Ballast; Sanitary Pipes; Dutch and English Clinkers; Scotch Fascias, White and Red; Patent Malting Tiles, &c. Shipments to all parts of the world.

TO CONTRACTORS, BRICK MERCHANTS, BUILDERS, AND OTHERS.

MR. L. DAVIS having finished his make of BRICKS for this year, is about to make large alterations and extension in his fields, and is prepared to enter into CONTRACTS FOR ANY QUANTITY, not exceeding Twenty Millions, for the next year, L. D., in thanking the public for the large share of patronage he is receiving, solicits an inspection of his bricks, as, from his not allowing them to be sorted, it will be found his stocks at 35s. will make excellent face work, and many paving and arch work; only two prices being made, viz. 1st pieces, 2nd stock, and although it may be a novel, it will be found to work well. Plumstead-road Brick fields are within a quarter of a mile of the river, free wharfage, and may be put on board barges for 1s. per thousand, including all charges.—Offices, Powis-street, Woolwich.

BRICKS.—In consequence of the low price at which Brick makers have, for some time past, been purchasing Ashes and Breese, H. DODD is enabled to offer his bricks, which are of good quality, at the following low prices; and as his fields are only a quarter of an hour's walk from the City, H. D. earnestly requests purchasers will favour him with a visit, in order to inspect his stock and to judge for themselves.

Marls Cutters	40s.	per thousand.
Yellow Seconds	32s. 6d.	"
Pale Seconds	30s.	"
Paviors	30s.	"
Pickings	28s.	"

Marls Place, Half-wasted Stocks, and Place Bricks, at equally low prices. These bricks are sound, well burnt, and unusually free from clinkers; a very large proportion of the Stocks being suitable for external facing. They will be delivered at the above prices anywhere within two miles of the fields.

Apply to HENRY DODD and Co., at the Counting-house, Horton Brickfields, Grange-walk, near the Rosemary Branch, Hoxton.

N.B. Red Pitt Sand, of approved quality, constantly on sale, upon reasonable terms. In the erection of walls, where it is desirable that the work should be kept as free from damp as possible, this sand, from its not containing any saline matter, is acknowledged to be preferable to river sand.
